

Memorandum of Understanding

Between

**The Faculty of Engineering and Architecture
Rajamangala University of Technology Suvarnabhumi**

And

The Institute of Marine Industry, Gyeongsang National University

This agreement made and entered into as of 1 August 2013 between the Faculty of Engineering and Architecture, Rajamangala University of Technology Suvarnabhumi (RMUTSB), Thailand and the Institute of Marine Industry, Gyeongsang National University (GNU), Republic of Korea, believe that mutual benefits can be derived by bridging their two institutes, achieving a closer relationship by linking their scholars, students, and personnel. Both institutes share a strong conviction that mutual understanding among people can be promoted through the establishment of academic links. Therefore, both institutes agree to enter into this Memorandum of Understanding (MoU).

Article I: Principles of Collaboration

The Faculty of Engineering and Architecture, RMUTSB, and the Institute of Marine Industry, GNU, agree to closely do research cooperation and develop their academic links under the principles of mutual understanding, mutual benefits, common interests, and mutually complementary activities.

Article II: Aims of Collaboration

- 1) To develop and encourage joint research, seminar, conference, symposium, workshop, and also to assist each other in obtaining external funding from outside sources,
- 2) To promote links in teaching, research, and cultural activities,
- 3) To provide opportunities for both staff and student exchanges; however, such exchanges need not be equally reciprocated,
- 4) To promote individual contacts among scholars, students, and personnel of both institutes,
- 5) To support the exchange of academic materials, equipments, publications and information,
- 6) To develop joint study programs when opportunities arise,
- 7) To encourage any other activities that both universities agree to be of mutual benefit.

Article III: Areas of Collaboration

Areas of collaboration can include any academic or other programs offered by the Faculty of Engineering and Architecture, RMUTSB, and the Institute of Marine Industry, GNU.

Article IV: Duration and Termination of the Agreement

It is understood and agreed that

- 1) Proposals for collaborative projects under this MOU will be submitted through the President class of both sides and it is recommended that reports should be submitted to each President class at the completion of each project.
- 2) The two sides shall continue to pay the regular in-country salaries of their members on exchange or visiting programs.
- 3) Financial arrangements for collaborative research, seminar, workshop, conference, symposium, and other activities shall be negotiated separately and shall be subject to availability of funds.
- 4) The host institute or host government shall render all necessary assistance for the successful completion of field surveys.

5) The host institute is not responsible for covering the costs of medical treatment or hospitalization for visiting scholars or students and it is recommended that visitors obtain overseas health insurance coverage from their home country.

Article V: Duration and Termination of the Agreement

- 1) The agreement is intended for a five-year period and will be effective when it is signed by both parties.
- 2) The agreement may be amended at any time by written mutual consent.
- 3) The agreement may be terminated by either party giving to the other party no less than one month written notice, provided that such notice shall not be given less than six months prior to the agreed termination date.

Having read and being fully understood in agreement with the above terms and conditions, we, the undersigned, affix our signatures on this MOU on August 1, 2013.
